

For the people who look after a school.

Ordinary takes a lot.

Coram connects video, entry events, and response tools. Give your team useful context for the places and people in their care.

See Coram in action

coram.ai/book-a-demo

A conversation about your school

Your places

Which entrances, buildings, and times of day need attention?

Your people

Who reviews information, coordinates, and follows through?

Your existing setup

Which cameras and systems should connect?

Your first useful test

What question should a demonstration help your team answer?

Video Security uses Coram Point and camera licensing. Emergency Management can operate separately or connect with Video Security. Confirm compatibility, scope, and licensing with Coram.
